

FOR IMMEDIATE RELEASE

Secure Insight Database Reaches 1.3 Million Searches

Settlement Professional Database Helps Reduce Fraud Incidents

Parsippany NJ, February 26, 2016 – Secure Insight, the mortgage industry’s first ever data intelligence analysis and reporting firm focused on managing closing table risk announced today that their settlement agent database has been searched 1,356,314 times, helping reduce the incidents of mortgage fraud nationwide. **Those searches have been conducted by dozens of banks around the United States seeking to protect their assets and their consumer clients from harm. In the past 5 years Secure Insight has uncovered numerous consumer risks and prevented estimated bank losses in excess of \$10 Million Dollars.**

Secure Insight maintains and monitors the industry’s largest database of settlement professionals, ensuring that lenders meet regulatory requirements, protecting themselves and their customers.

We offer a suite of tools to assist lenders with the management of third party service provider risk and employee screening. VendorCheck™ offers our clients a total third party vetting tool, while Safe-ChekUSA™ offers employee screening to meet federal and state data privacy and consumer protection expectations. Of course our signature products ClosingGuard™ and QuickCheck™ remain the industry’s best and most reliable settlement agent vendor management and monitoring compliance tools. With our new brand name, Secure Insight, we are much more than just settlement agent vetting!”

About Secure Insight

Secure Insight was founded as Secure Settlements Inc. in 2009 as the first company to offer a standardized risk evaluation and management process to protect consumers and lenders from closing agent fraud and to meet federal regulatory requirements. Today it offers solutions for the vetting of all third party service providers in the mortgage industry through tools such as QuickCheck,™ Closing Guard,™ VendorCheck™ and Safe-ChekUSA™.

Secure Insight monitors thousands of title companies, settlement agents, real estate law firms and other professionals through its proprietary technology and the mortgage industry’s only shared nationwide database. The database is accessed daily as a fraud prevention tool by state and federal banks, mortgage lenders and credit unions throughout the United States.
